

Allinial Global-An introduction

Allinial Global is an accounting firm association of legally independent accounting and consulting firms with offices in North America and throughout the world through international members and partnerships.

Allinial Global firms have the flexibility to find not just a good solution to your business challenges—but the best solution for you. Working with an Allinial Global firm means that you have access to the experience and knowledge of every firm in our organization through our Transfer of Excellence.

And because the Allinial Global structure is fluid, our reach is broader and our member firms can be more responsive, both locally and globally. There aren't many business challenges that can't be resolved or questions that can't be answered by members of our association or their connections. Put the agility of Allinial Global to work for you.

The member firms of Allinial Global share education, marketing resources, and technical knowledge in a wide range of services and sectors. They have access to a broad array of resources and support that benefit both our member firms and their clients in eight key impact areas:

- Learning & Development
- Human Resources
- International Connection
- Technical Support
- Communities of Practice
- Marketing Resources
- Information Technology
- Practice Management

At Allinial Global, we empower independent accounting and consulting firms to provide the best of both worlds: the prompt, personal attention of a local firm combined with the knowledge and resources of an international association.

This is the Allinial Global advantage—the ability to provide not just an adequate solution, but the best solution available anywhere in the world.

With an Allinial Global firm, you can enjoy the perks of being connected to a global accounting association that keeps abreast of key macroeconomic trends and emerging issues while still benefitting from the location- and industry-specific service of a local firm who will customize a solution to your business needs.

Allinial Global helps its member firms better serve clients both locally and globally by providing a broad array of critical resources and support in key service areas. So regardless of your industry or service needs, an Allinial Global firm is always poised to provide increased value to you, their client.

It’s both a pleasure and an honor to see our vision of a member-driven, client-focused model becoming a reality.”
